Walnut Beach Association November 13th meeting minutes

Officers in attendance – President Simon McDonald

Agenda

Nominees for the Board

Geoff nominated Simon for President Pam seconded the vote was Aye and Simon Accepted. As no other officers were there we tabled other nominations.

Holiday Party Discussion of having the party in January was had and agreed on by vote of members present. We decided we need to get members involved in a planning committee and we are looking for volunteers. If you would like to volunteer, please reach out to Simon.

Changes in Concert Schedule for 2024 – As there will be major construction in the spring and early summer at Fowler Field during the historical period of the downtown concert series discussion was had about swapping the Walnut Beach Concerts to the beginning of the Summer so as not to conflict with downtown concerts at the end of the summer. This was agreed on by vote. Details to follow as the become reality.

The WBA feels that we need to do more in the beautification of the area and we need to set up committees to find and implement projects that will make the neighborhood even more beautiful than it is. Ideas discussed were:

- The Bocci Court Area at the beach
- Plantings around Signs at the beach and surrounding area
- Art installations i.e., Painting Storm drains, Fire Hydrants, Sculptures around the neighborhood.

More ideas are welcome.

Stowe Barn was discussed and as a historical landmark for the region we do not want to lose it however if no purpose is found for it it may fall into a state of disrepair. We would like to put together a comprehensive plan to create a viable use for the barn, in order to do this we will need a Stowe Barn committee.

Open Spots on the Board include:

Vice President

Government Relations

Current Officers include:

Gean Brown – Secretary

Sheri Ton – Treasurer

Please send in nominations for open Spots and we will have a nomination at the December meeting.

Respectfully Submitted,

Simon McDonald
President, Walnut Beach Association
